

The Department of Commerce and the MN Public Utilities Commission are making upgrades to the joint case tracking and assessment system database.

As a result of this upgrade, beginning Friday, June 12 at 3pm through Friday, June 19: All new petitions (new dockets) will be held and processed on Friday, June 19. These held petitions will retain the actual received date, despite the delay in the docket number assignment and appearance in eDockets.

This upgrade does not affect the filing of new documents in existing cases.

If you have questions, please contact Karen Santori at 651/296-0391.

If an emergency situation exists which requires a docket assignment immediately, please contact the Executive Secretary of the Commission, Burl Haar at 651/296-7124.
